## EMBROIDERY

Designs or logos are sewn directly onto garments using multi-head embroidery equipment. Contemporary embroidery is stitched with a computerised embroidery machine using digitised embroidery software. Each head can hold up to nine colours. Multi-coloured designs are charged the same as single coloured designs. Depending on the amount of heads and needles on the machine, designs can use up to fifteen colours.

**Suitable Vic Bay garments:** Heavyweight T-shirt, Platinum T-shirt, Fitted T-shirt, V-Neck T-shirt, Long Sleeve T-shirt, Dry Fit T-shirt, Vest, Racerback, Polo, Dry Fit Polo, Sweater, Hoodie, Full Zip Jacket, Oxford Jacket.

## DIRECT TO GARMENT

State-of-the-art decorating technique used to print the digital image directly onto the garment, using inkjet technology. The speciality inks are absorbed by the fibres of the garment. Unlike heat/iron-on transfers, DTG printing creates a vibrant image with good durability and washability. No set-up costs. No minimum quantities. No charge for multiple colours.

**Suitable Vic Bay garments:** Heavyweight T-shirt, Lightweight T-shirt, Platinum T-shirt, Fitted T-shirt, V-Neck T-shirt, Long Sleeve T-shirt, Dry Fit T-shirt, Vest, Racerback, Polo, Dry Fit Polo, Sweater, Hoodie, Full Zip Jacket.

## SCREEN PRINTING

Tried-and-true decorating technique that involves digitally etching designs onto mesh screens via a light-sensitive emulsion. Screens are mounted onto a press and ink is forced through the mesh directly onto the fabric and then cured under high temperatures. Each colour in the design requires an individual screen. Once all screens are printed, the design comes to life.

**Suitable Vic Bay garments:** Heavyweight T-shirt, Platinum T-shirt, Fitted T-shirt, V-Neck T-shirt, Long Sleeve T-shirt, Dry Fit T-shirt, Vest, Racerback, Polo, Dry Fit Polo, Sweater, Hoodie, Full Zip Jacket, Oxford Jacket.

## SUBLIMATION

Dye sublimation printing is a process used to print on polyester or other synthetic fabrics. Large printers with specially formulated inks are used. A reverse image of the final design is printed onto coated, heat-resistant transfer paper and then transferred onto polyester fabric using a heat press.

**Suitable Vic Bay Garments:** Dry fit T-shirt, Dry Fit polo.

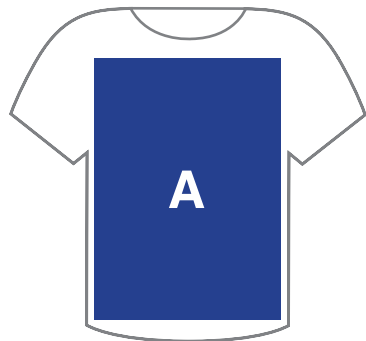

## HEAT TRANSFER

A digital print is printed onto special vinyl and is then transferred onto the fabric, using a heat press. Transfers are printed with a large format printer, using solvent-based inks. They are then cut out by the machine, lined up onto the fabric, and pressed into place.

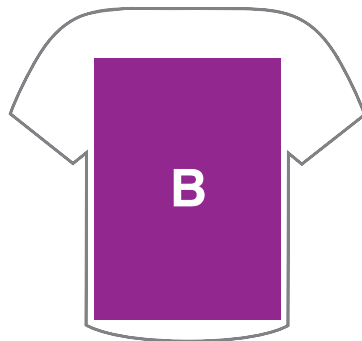

**Suitable Vic Bay Garments:** Heavyweight T-shirt, Lightweight T-shirt, Platinum T-shirt, Fitted T-shirt, V-Neck T-shirt, Long Sleeve T-shirt, Dry Fit T-shirt, Vest, Racerback, Polo, Sweater, Hoodie, Full Zip Jacket.

**SUITABLE FOR:**

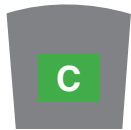

Embroidery, Direct to Garment (DTG), Screen Printing & Heat Transfer.

If you are looking for a specific colour that is not in our standard range, request a custom colour to suit your particular garment needs. ( Available on demand )

Customer to supply us with a **fabric swatch** or **Pantone code** of the requested colour.

Customer to select a **Vic Bay garment style** of choice. We will inform you of the **minimum order quantity** for the style selected.

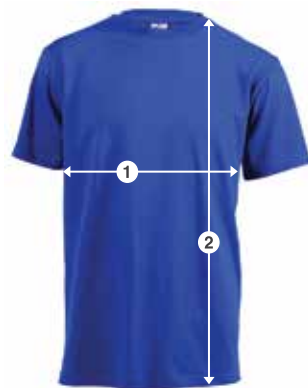

Once the **custom-colour swatch** is approved and **50% deposit paid**, we will go ahead with the production of the order.

**Measurement 1 (Width)** measures across the bust 2cm below the armhole.

**Measurement 2 (Length)** is measured from the highest point of the shoulder to the bottom hem of the shirt.
